Today's November 1965 Cover: SFC Robert C. Sanders and SSG Peter C. Richards, of the Armed Forces Radio and Television Station – Asmara, film the first footage with the new Bolex Baillard Camera the Station recently received. The addition of the new camera makes it possible for AFTV-Asmara to take, process and edit local events and command functions in approximately four hours. With this camera, the AFTV Station will put Kagnew Station in a position to truly be a morale booster to its viewing audience.
